LEARN ABOUT PORTECAP'S  
NEWEST INNOVATIONS

### » » MD&M East June 9-11, 2009

Portescap invites you to visit us at the Avnet Electronics booth at MD&M East 2009, Booth 1131. Meet with Portescap specialist, Dave Zientko, and learn how our newest innovations can help your applications succeed! Get a sneak preview of our upcoming 15mm Can Stack Vector and our h3 DLA. Whether you're looking for a compact high speed autoclavable motor or a high power density motor with fast start up speed, we'll be able to help you find the perfect solution for your most challenging needs. We hope to see you there.

### Motion Solution Spotlight

#### Special Preview of upcoming innovations.

We're preparing to introduce our new h3 Vector and 15mm CanStack Vector which can help you design a better motion solution faster and easier. [Take a sneak peak at these motors and learn more!](#)

[Contact us](#) today to if you're interested to learn more or to schedule an appointment to discuss specifications and see samples.

**BLDC Slotted Motors.** BLDC slotted motors from Portescap can help your medical hand tool applications succeed. Life tested to withstand in excess of 1,000 autoclave cycles, we offer rapid prototype samples and can help you customize a motor to fulfill your requirements. [Read more.](#)
